🎓 Education

- Ph.D. in Computational & System Science
- M.Tech in Computational & System Science

🌟 Certifications

- Generative AI and Large Language Model
- Specialization in Machine Learning Engineering for Production (MLOps)
- Specialization in Deep Learning
- Architecting with Google Kubernetes Engine: Workloads
- Architecting with Google Kubernetes Engine: Foundations
- Machine Learning A-Z TM Hands-On Python & R In Data Science
- Machine Learning, Stanford University
- Introduction to Data Science in Python, University of Michigan

🏠 Address

Johannesbergsvågen 54

Stockholm, Sweden

Sarbashis Das, PhD.

Principal Data Scientist & Technical Lead

Experience Summary With over 10 years in AI/ML, I currently serve as a Principal Data Scientist & Technical Lead at Ericsson, Sweden. I have been pivotal in designing the software architecture of different AI-based Products. My journey reflects a passion for Generative AI and a focus on developing innovative AI/ML products and tools. I lead cross-functional teams, mentor junior data scientists, and drive the adoption of advanced AI technologies at Ericsson.

🔧 Professional Skills

Data Science Leadership

- Cross-functional Team
- Strategic Planning
- Collaboration
- Decision-Making
- Technology Exploration
- Team Mentoring

Project Management

- JIRA & Confluence
- Risk Management
- Agile Development
- Resource Allocation
- Team Supporting
- Communication

Generative AI

- RAG Techniques
- Prompt Engineering
- Agentic AI
- Model Evaluation
- LLM Deployment
- Content Generation

GenAI Framework

- LangChain
- Ragas
- LangGraph
- Haystack
- AutoGen
- Crewai

Information Retrieval

- Semantic Search
- Information Retrieval
- Vector Search
- Data-Preprocessing
- Knowledge Graph
- SPARQL

Cloud Platforms

- Azure-ML
- AWS Bedrock
- Google-Vertex AI

Visualization

- Kibana
- Grafana
- Opensearch-Dashboard

Programming

- Python
- R

💡 Work Experiences

2024 – Present: *Principial Data Scientist & Technical Lead – Industrialization of Agentic RAG Assistant*

AI Hub Ericsson, Sweden

❖ Focus Areas: *Generative AI and LLMs*

- Lead Industrialization of the **Agentic RAG** based Chatbot.
- Designed and implemented the overall architecture of the solution, ensuring scalability, reliability, and efficiency.
- Drive **collaboration** for different AI use-cases.

2020 – 2024: *AI Architect & Technical Lead for Ericsson Product Information Assistant*

AI Hub Ericsson, Sweden

❖ Focus Areas: *Product Development & Project Management*

- Leading a diverse team of 15 professionals, including **Data Scientists**, **Data Engineers**, **Software Developers**, and **Domain Experts**, to successfully deliver the project.
- Conducted **Proof-of-Concept (POC)** for new technologies and led collaboration with teams in different organizations.
- Collaborate closely with the **Operative Product Owner(OPO)** and **Strategic Product Manager(SPM)** to shape the **Product Roadmap** and facilitate feature development.
- Held responsibility for the **comprehensive architecture** of the Assistant, overseeing 35 microservices.
- Implemented **Agile Methodologies** to efficiently plan and manage the development of the Assistant, resulting in 16 successful quarterly releases.

2021 – 2023: *Senior Data Scientist*

Global AI Accelerator (GAIA) Ericsson, Sweden

❖ Focus Areas: *Generative AI and LLMs*

- Proposed and drove the implementation of **Retrieval Augmented Generation (RAG)** using vector embedding and **Large Language Model (LLM)**.
- Evaluating different **vector stores** for RAG architecture.
- Propose **Architectural improvements** and **Prompt Engineering** for system efficiency and answer quality

Stockholm, Sweden

Sept, 2022 – March 2023: *Leaders Core Curriculum Program (LCC)*
Ericsson, Sweden

- The Leaders Core Curriculum (LCC) is Ericsson's foundation-level **leadership development** program that focuses on developing the core leadership capabilities needed to drive performance. Over the course of this 15-week program:
 - Developed self-awareness.
 - Learned different leadership style, understand what drives and motivates a team
 - How to influence and collaborate effectively across organization.

2019 – 2021: *Data Scientist*

Global AI Accelerator (GAIA) Ericsson, Sweden

- ❖ *Focus Areas: Knowledge graph generation*
 - Developed pipeline for **data mining** documents and generate Knowledge Graph using open-source tools
 - **Trained ML model** for name-entity recognition for Ericsson Product names.
 - Designed SPARQL queries to fetch information from the **Knowledge Graph**

2014 – 2019 *Researcher/Senior Researcher*

SciLifelab, Uppsala University, Sweden

- ❖ *Focus Areas: Understand gene regulation in different types of heart failures using Machine Learning*
 - Different **Machine Learning** approaches like **dimension reduction** and **unsupervised clustering** were used to identify 743 dysregulated genes.

🏆 Awards

2024, *Ericsson Key Contributor Award*

This recognition reflects potential to drive Ericsson's long-term Strategic priorities

2021, *Ericsson Impact Award 2021*

The award was given to the people who contribution has a great impact to Ericsson business value

2017, *Research Grant awarded as a co-applicant*

Title: Dynamics of gene regulatory networks in response to different stresses in Mycobacteria. Funding Agency: FORMAS.

2016, *Research Grant awarded as a co-applicant*

Title: Non-coding and regulatory RNAs in Mycobacteria. Funding Agency: Swedish Research Council (VR)

2012, *Awarded Wennergren Postdoc Fellowship*

Funding Agency: Wennergren Foundations. Grant offered, but gracefully declined due to accepting other Postdoc position)

2010, *Awarded Senior Research Fellowship*

Funding Agency: Council of Scientific and Industrial Research (CSIR), Government of India.)

2006, *Awarded Scholarship for Master of Technology*

Funding Agency: Department of Biotechnology (DBT), Government of India.)

📺 Highlighted Invited Talks and Conference Presentations

2024, *Presented Ericsson Product Information Assistant with Generative AI*

Ericsson Developer Conference

2024, *Invited talk, Uppsala University*

Generative AI & LLM to Master Program students

2023, *Presented & Demoed Retrieval Augmented Generation (RAG) Architecture in PIA*

Multiple Organization within Ericsson

2022, *Presented & demoed, Ericsson Developer Conference (Stockholm)*

Presented Ericsson Product Information Assistant and demoed different functionalities
